

Phase 4: Practice Project 3 Write Up

You must use the following:

- Angular: To develop a front-end application that includes a sign up page, a sign in page, and a landing page
- Git: To connect and push files from the local system to GitHub
- GitHub: To store the Angular application

Following requirements are met:

- A few of the source code should be tracked on GitHub repositories. You need to document the tracked files that are ignored during the final push to the GitHub repository.
- The submission of your GitHub repository link is mandatory. In order to track your task, you need to share the link of the repository in the document.
- The step-by-step process involved in completing this task should be documented.
