General info

A simple file handling project in Java

Using the application

Welcome screen displays the application name and the developer details.

The details of the user interface are shown to the user. The user has to select from the options listed

A screenshot of a terminal window showing the application's main menu. The text is as follows:

```
***** LockedMe.com *****  
***** Sathvika Munja *****  
  
DIRECTORY : D:\KCSM8\src\phase1Corejavaproject\files  
  
MAIN MENU - Select any of the following:  
1 -> List files in directory  
2 -> Add, Delete or Search  
3 -> Exit Program
```

1. The first option returns the current file names in ascending order. The main directory can be assigned in LockedMe class.

2. The second option returns the details of the user interface options displaying the following:

- a. Add a file to the existing directory list

- b. Delete a user specified file from the existing directory list
 - c. Search a user specified file from the main directory
 - d. Option to navigate back to the main context
3. Third option to closes the application

Technologies:

Project is created with
